# Hexcel and Dassault Aviation Celebrate Falcon 10X Roll-Out, Strengthening a Long-Term Partnership

2026-03-11

STAMFORD, Conn.--(BUSINESS WIRE)-- Hexcel Corporation [NYSE: HXL] today congratulated Dassault Aviation on the successful roll-out of the Falcon 10X, marking a major advancement for this next-generation business jet. This milestone underscores the enduring partnership between Hexcel and Dassault. Hexcel was selected in 2022 to supply structural prepregs for the entire wing of Falcon 10X program.

“Our partnership with Dassault exemplifies how Hexcel’s expertise in lightweight, advanced carbon fiber composites drive the next generation of high-performance aircraft,” said Tom Gentile, Chairman, CEO & President of Hexcel. “We are proud to support Dassault in ensuring the durability, efficiency, and competitive edge of the Falcon 10X throughout its service life with a full composite wing.”

Hexcel’s advanced M21E/IMA prepreg implemented in collaboration with Dassault Aviation’s technical teams, delivers the weight-saving, stiffness, and fatigue-resistance required by the Falcon 10X wings. This solution, through its secure supply chain, its unmatched performances and its wide industry adoption, is a significant asset to ensure a bright future for this flagship business jet.

## About Hexcel

**Hexcel Corporation** is a global leader in advanced lightweight composites technology. We provide innovative, high-performance material solutions that are lighter, stronger, and tougher, shaping a world that moves farther, smarter, and more efficiently. Our broad and unrivaled product range includes carbon fiber, specialty reinforcements, prepregs and other fiber-reinforced matrix materials, honeycomb, resins, engineered core, and composite structures for use in commercial aerospace, defense and space, and industrial applications.
